It is the goal of the Wolcott State Fire School to prevent occupational injuries during the firefighting training process.

The physical ability of a firefighter candidate, to be able to perform the "Firefighter Candidate Training Tasks" (as identified by Wolcott State Fire School) is of vital importance for the firefighter candidate's safety and wellbeing, as well as the safety and wellbeing of others in attendance.

The training to be provided, to prepare this candidate to become an NFPA certified firefighter, will at times be physically demanding.

To Assist In Determining Physical Performance Ability... Firefighter candidates are expected to be able to perform the "Firefighter Candidate Training Tasks" as identified by Wolcott State Fire School. (reference the back of this document for the "Firefighter Candidate Training Tasks")

This candidate is considered, by my department's medical provider, to be both physically and emotionally able to attend this firefighter training program and is able to perform the "Firefighter Candidate Training Tasks" without special considerations.

Chief/Medical Provider Name (print) _____ Title _____
authority having jurisdiction

Chief/Medical Provider Signature _____ Date _____

As the candidate identified above, I attest that I am both physically and emotionally able to perform the "Firefighter Candidate Training Tasks" and that I have no medical condition or ailment that will impair my safety and wellbeing during my attendance of the training program identified above.
